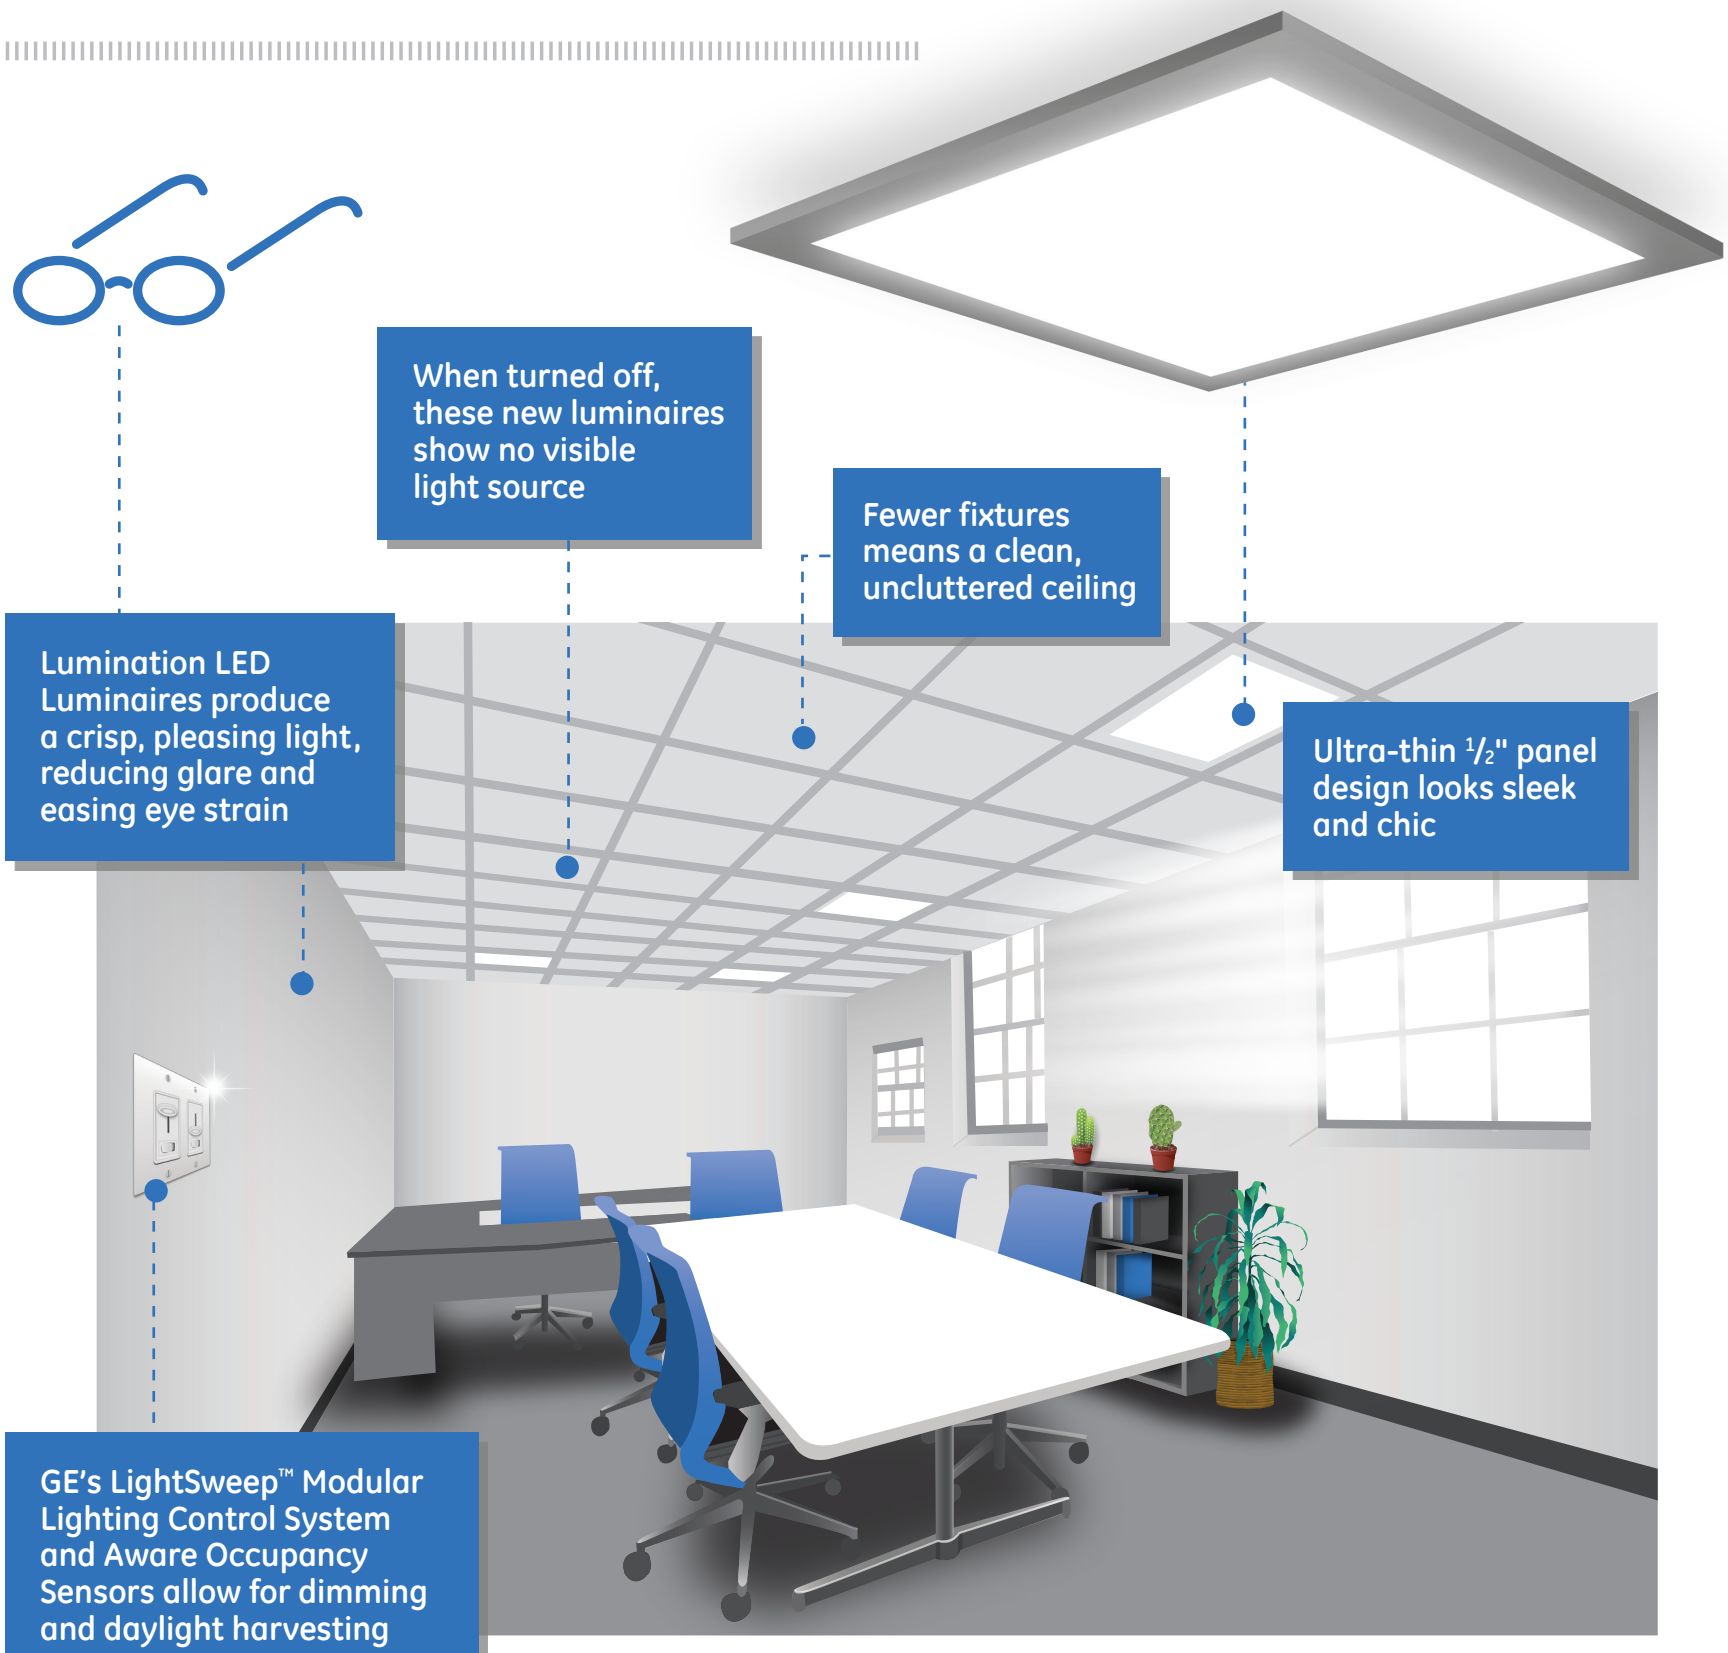
Easy on the Eyes

Lumination™ LED Luminaires Bring Beauty and Comfort to Work

A Nela Park office building replaced all of its fluorescent fixtures with **GE's Lumination ET22 LED Luminaires** to create an inspiring, energy-efficient work environment.

- **Intrinsx™ technology optimizes light distribution and efficiency.**

51 Lumination LED Luminaires can do the work of **96** twin-tube fluorescent fixtures



When turned off, these new luminaires show no visible light source
Fewer fixtures means a clean, uncluttered ceiling
Lumination LED Luminaires produce a crisp, pleasing light, reducing glare and easing eye strain
Ultra-thin 1/2" panel design looks sleek and chic
GE's LightSweep™ Modular Lighting Control System and Aware Occupancy Sensors allow for dimming and daylight harvesting to capture even greater energy savings

Longer life of Lumination LED Luminaires = reduced maintenance costs

- **GE's Lumination LED Luminaires transformed the look and feel of every workspace.**

5,000 square feet - 23,700 fewer kWh of electricity/year = 78% boost in energy efficiency

= $2,600 annual savings*

*Based on 3,130 hours of operation and an $0.11 kWh rate.
